THE **DIGITAL IRELAND** FORUM **2012**

Ireland's Tech Leaders on Winning in the Next Economy 23 March, The Convention Centre, Dublin 1

KEYNOTE SPEAKER

Sean O'Sullivan, Founder, MapInfo and Avego; MD, SOSventures; newest addition to *Dragons' Den*

Recognised as the co-creator of the term 'cloud computing', serial tech entrepreneur Sean O'Sullivan is co-founder and managing director of Avego, a 55-person technology firm that has offices in the US, Ireland and China. Sean is also managing director of SOSventures International, which has boasted returns averaging 27% over the past 15 years, and a founder of JumpStart International and Chinaccelerator. His first company MapInfo grew to become a US\$200m public company, and popularised street mapping on computers. Sean is the latest high-profile addition to *Dragons' Den*.

KEYNOTE SPEAKER

Emer Coleman, Deputy Director of Digital Engagement at Government Digital Services in the UK

Emer Coleman was recently named in *Wired* magazine's Top 100 Digital Power Influencers List 2011. Until December, she was the director of Digital Projects for the Greater London Authority and had responsibility for the development of London Datastore, a project to release all of London's public-sector data into the public domain. She was also responsible for digital projects supporting the work of the Mayor's Environment and Digital Adviser. This included work to develop connectivity in London, including greatly increasing Wi-Fi availability in London ahead of the 2012 Olympic and Paralympic Games.
