About IVCA VenturePulse

The Irish Venture Capital & Private Equity Association VenturePulse survey is recognised by the VC industry and by government and international bodies, including the OECD, as the definitive and most up to date source of fundraising activity in Ireland.

The data covers equity funds raised by Irish SMEs and other SMEs headquartered on the island of Ireland from a wide variety of investors. This research is the result of the latest detailed information supplied internally by members of the Irish Venture Capital Association and from published information where IVCA members were not involved.

A list of the funding rounds that comprise the source data for the total will be available on the IVCA website, www.ivca.ie.
